Nurseries in the Wenatchee Valley, Washington

Stock Carefully Grown and Properly Handled

Established 1906, Incorporated 1916

Columbia & Okanogan Nursery Co., Inc.

Wenatchee, Washington

Freight charges prepaid to nearest railway station or steamboat landing

Dickson Printing Co. Wenatchee

Our stock is all inspected according to law, and a certificate of inspection will accompany each shipment.

We have ample facilities for packing orders so they will reach destination anywhere in the United States and Canada in perfect condition. In the spring our cool basement holds our stock practically dormant into the month of May, when trees are in full leaf outside.

INTRODUCTION

—::—

In issuing this condensed catalogue the description of varieties is left out for want of space, but those named are standard and especially adapted for the Northwest.

Varieties marked with a star are very hardy and recommended for high altitudes where winters are severe.

No pains or expense are spared to grow the very best stock. Planters of orchards in this section have justly become very critical about their nursery stock, and we are putting forth our best efforts to supply their demand for carefully grown stock. Every detail of planting, growing, packing, shipping; the selection of scions and buds are given careful personal attention by experienced men. We take infinitely more pains than do many nurseries with whose methods we are familiar.

With us, quality is of first importance; price is of secondary consideration. The best trees are none too good to plant in the orchard which is expected to be a source of profit during a long period of years. Healthy, vigorous trees, well grown, well dug, well handled, and at a fair price, are what the planter wants.

To those with whom we have had dealings in the past, we extend our sincerest thanks for the liberal patronage given us, and we hope, with a complete line of home grown stock, to merit a continuance of the pleasant relations existing.

If we can assist you with any information on any point that may be puzzling to you, write us freely, asking as many questions as you wish, and we will endeavor to give you the benefit of our judgment and experience. We will do this gladly without any expense or obligation to you.

As to our responsibility, we refer you to any bank or other business establishment in Wenatchee.

COLUMBIA & OKANOGAN NURSERY COMPANY, INC.

Wenatchee, Wash.

INSTRUCTIONS

—::—

1—We begin shipping in the fall about October 25 and in the spring about March 1.

2—Persons not acquainted with the different varieties would do well to leave the selection to us as we shall send only varieties best adapted to their locality.

3—We hold ourselves in readiness to rectify promptly any mistakes that may occur. Stock should be carefully examined and counted as soon as received. If anything is wrong, notify us at once, telling us exactly what the trouble is.

THE NEW "CHELAN" APPLE

Extra Long Keeper **Extra Fine Flavor**
Extra Good Looker **Extra Good Shipper**

We are now offering to the public trees of this wonderful apple.

This variety originated from a chance seedling on the shore of Lake Chelan, Washington, hence the name. We have watched it carefully for several years, and have subjected both tree and fruit to every test. The tree is a fine, vigorous grower, an annual bearer, and perfectly hardy. The original tree has never missed a crop. The fruit is a marvel of perfection. It is beautiful in color, perfect in shape, and of uniformly large size. It has a most pleasing flavor, which is entirely different from any other apple. Its aroma is lingering and delightful. Its quality, tenderness and texture are remarkable. It is firm and solid when picked, and will stand rough handling. It keeps perfectly and improves in quality, texture and flavor throughout the spring and summer.

We have kept specimens in cold storage for three years.

Do not fail to include some of these trees in your order. We are offering them this season while they last at $1.00 each; $10 per dozen.

ROSES

CHOICE TWO-YEAR FIELD GROWN ROSES

NOT HOT-HOUSE GROWN

Our large field-grown rose bushes should not be compared with small, tender hot-house plants offered by mail-order houses at low prices. Such plants are always disappointing, not blooming until the second season.

Our bushes are hardy, field-grown, well rooted, and will bloom the first season.

All varieties not specially priced are 50 cents each, $5.00 per dozen.

HYBRID PERPETUAL (Very Hardy)

American Beauty (red).
Black Prince (dark crimson).
Clio (flesh color).

Captain Hayward (bright scarlet).
Frau Karl Druschki (Snow Queen) (white).
General Jacqueminot (velvety crimson).
Dinsmore (cherry red).
Mrs. John Laing (pink).
Madam Plantier (pure white).
Paul Neyron (pink; large).
Prince Camille de Rohan (dark red).
Ulrich Bruner (cherry red).

HYBRID TEA (Hardy, with Slight Winter Protection)

Helen Gould (rosy crimson).
Gruss an Teplitz (fiery red).
Kaiserin Augusta Victoria (pure white).
Killarney (white).
Killarney (pink).
La France (silvery).
Meteor (deep velvety crimson).
Madam Caroline Testout (satiny rose pink).
White La France.
Richmond (scarlet crimson).
Mrs. Aaron Ward (Indian yellow), 75c each.

TEA ROSES (Not Hardy in Very Cold Climates)

Etoile de Lyon (deep golden yellow).
Maman Cochet (rosy pink).
Marie Van Houtte (rich creamy white).
Papa Gontier (dark crimson).
Safrano (bright apricot yellow).
The Bride (delicate pink).
White Maman Cochet (pure white).
Sunburst (cadmium yellow), $1.00 each.

Marechal Niel (golden yellow).
Climbing American Beauty (deep pink, 75c each.

TREE ROSES

White, Pink, Crimson and Yellow, $2.00 each, $20.00 per dozen.

WINDBREAKS

Too many farm yards in the grain-growing and stock-raising districts of the Northwest are without windbreaks.

In the states east of the Rocky Mountains a tree windbreak has long been recognized as a necessary protection, and but few farms are without them. They not only furnish protection and shelter from severe winds, but give shade to family, live stock and poultry during the hot summer weather.

Many farmers have the mistaken idea that windbreak trees cannot be grown in the drier regions, but it is a proven fact that certain varieties can be grown wherever farming can be carried on. A little care in planting, followed by frequent cultivation during the first season is all that is required. Where rainfall is very light, the Black Locust and the Box Elder do well. Where moisture is more plentiful, in addition to the above mentioned varieties, plant Carolina Poplar, Lombardy Poplar and Silver Maple. All of the above varieties are rapid growers and hardy.
